6 Tips to Fireproof Your Home!

You can identify fire hotspots at your home and find tips to be ready to face the fire challenges in the first second of the emergency. It all happens when you prepare a first

kit and know how to use the same.

But there's more!

You can fireproof your home with smart and effective tips.

Now how to do that without breaking into fits of anxiety?

Checklist of 6 tips to fireproof your home right away:

- Use fire retardant productive or materials at home
- Install smoke alarms near fire hotspots at home
- Get a fire extinguisher and learn how to use it
- Install fire exit near fire hotspots
- Get an anti-arson letterbox to deal with inflammable liquids at home
- Construct a fire-stopping landscape around your house
- But is that all to keep you safe from such accidents?

Natural calamities and accidents can occur at any time and you can't make your house 100% fireproof. However, you can be more cautious and prepared.

That's with First Aid knowledge at your fingertips!

Register for a free student account on www.cpraedcourse.com today and get started. All courses like CPR and First Aid on American HealthCare Academy (AHCA) follow AHA and 2020 ECC guidelines. You also earn CE credit hours and receive a free mailed-in wallet card.
